

Researchers, Graduate students, postdoctoral fellows and third year undergraduates are invited to an information session on

Research Funds for Graduate Students and Postdoctoral Fellows

Date: Friday, November 23, 2018

Time: 2:30 p.m. – 4:00 p.m.

Location: McGill Macdonald Campus, Faculty Lounge, Macdonald-Stewart Building,
Room MS2-022

Presenter: Noha Gerges, PhD, Business Development Specialist, McGill University

Mitacs builds partnerships between academia, industry and the world to create a more innovative Canada. Through unique research funding and training programs, Mitacs aims to support the development of the next generation of innovators with vital scientific and business skills.

This information session briefly presents the various research funding programs available at Mitacs for graduate students and postdoctoral fellows, including Mitacs Accelerate, Elevate and Globalink. It also outlines basic techniques for identifying and reaching out to industry partners.

In this information session, attendees will learn which Mitacs resources are best suited to support your research and career objectives, and get hands-on techniques to identify and reach out to an industry partner.

Dr. Salwa Karboune

Associate Dean (Research)
Faculty of Agricultural and Environmental Sciences
